

January 4, 2019

Mr. David Nimer
311 Swift Avenue, #102
Durham, NC 27705

Dear David,

We have determined in our review of fall academic performance that you have not made satisfactory progress towards your degree. The academic standards implemented by the Education Committee (see attached) state earning an F grade will result in academic probation for the following semester. Additionally, our policy requires that a student maintain at least a B- (2.7) average; your current overall grade point average of 2.06 is well below the minimum. No student will be permitted to graduate unless their overall average is at least a B- (2.7).

As part of your probationary status, you must meet jointly with your advisor and one additional senior faculty member (associate professor or professor) in your program area selected by you and your academic advisor as soon as possible and within the next 10 days to discuss what is going wrong and how to remedy it. You must meet again with your advisor and the second faculty member a month after the first meeting to review your academic progress.

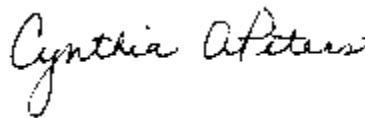

Please be aware that students holding scholarships or other awards when they are put on probation MAY be allowed to keep them for one semester if the student petitions the Education Committee and the committee approves the petition. Submit your petition to Professor Deborah Gallagher (deb.gallagher@duke.edu) and Assistant Dean Cynthia Peters (petersca@duke.edu) within one week of today's date. Any student not released from probation after one semester will not be eligible to retain the scholarship/fellowship. Additionally, you are not eligible for new financial support through the Nicholas School, though you are eligible for summer internship funds supported by the school through the Career and Professional Development Center provided academic standing is not a criterion, as described in the attached.

Please let us know if you have any questions. We realize that you may have had a very challenging semester so we want to work with you to help you achieve success in your studies and make satisfactory progress towards the degree.

Sincerely,

Deborah Rigling Gallagher, PhD
Director of Professional Studies

Cynthia Peters, Assistant Dean
Office of Student Services
